INTRODUCTION

This report represents the sixteenth (16) consecutive year that Carl Sandburg College has surveyed *all* occupational program graduates. This survey is conducted annually with the hope of providing current labor market information for prospective students, current students, faculty, staff, and administration. The annual survey can be a useful tool for career planning, academic advising, and curriculum and services modifications.

Methodology

The survey instrument used was a shortened version of the Occupational Follow-up Survey provided by the Illinois Community College Board. The survey was shortened in 2009 (Class of 2008) in an effort to increase the response rate.

Surveys were mailed to all occupational program graduates in November 2009. Those who did not respond were mailed a second letter in February 2010. Follow-up telephone calls to non-responders were conducted in March and April. Surveys were sent to graduates who completed their vocational program in December 2008, May 2009, and August 2009.

Note: Of the 275 graduates, 95 responded.

For each vocational program, survey results are given for the following:

- Number of graduates
- Number of survey responses

Of those responding:

- Number employed
- Number employed/career related
- Number employed/career related/in-district
- Average hourly wage
- Average hours worked per week
- Level of satisfaction with courses in program major
- Level of satisfaction with general services

Written comments from graduates were forwarded to the President, Vice President of Academic Services, Dean of Occupational Programs, and Dean of Allied Health.
