## INTRODUCTION

This report represents the fourteenth (14) consecutive year that Carl Sandburg College has surveyed all occupational program graduates. This survey is conducted annually with the hope of providing current labor market information for prospective students, current students, faculty, staff, and administration. The annual survey can be a useful tool for career planning, academic advising, and curriculum and services modifications.

A survey of this magnitude could not be accomplished without the assistance of others. The Employment Resources Office greatly appreciates the assistance provided by Michael Brackett, Benjamin Derry, and the graduates who responded.

## METHODOLOGY

The survey instrument used was the Student Occupational Follow-up Survey provided by the Illinois Community College Board. This year, graduates had the option to complete the survey on-line or through the mail. Letters, with a validation code unique to each graduate for on-line survey completion, were mailed to all graduates in November 2007. Those who did not respond were mailed a second letter in February, which included the validation code, as well as a paper copy of the survey. Follow-up telephone calls to non-responders were conducted in April. Surveys were sent to graduates who completed their vocational program in December 2006, May 2007, and August 2007.

Note: Of the 361 graduates, 104 responded. Of the graduates responding, 10 completed the survey on-line, 91 completed the survey on paper, and 3 completed by telephone.

For each vocational program, survey results are given for the following:

- Number of graduates
- Number of survey responses

Of those responding:

- Number continuing education
- Number employed
- Number employed/career related
- Number employed/career related/in-district
- Average hourly wage
- Average number of hours worked per week
- Level of job satisfaction
- Level of satisfaction with courses in program major
- Level of satisfaction with courses outside of program major

Written comments received were forwarded to the appropriate administrators.
