INTRODUCTION

This report represents the fifteenth (15) consecutive year that Carl Sandburg College has surveyed *all* occupational program graduates. This survey is conducted annually with the hope of providing current labor market information for prospective students, current students, faculty, staff, and administration. The annual survey can be a useful tool for career planning, academic advising, and curriculum and services modifications.

METHODOLOGY

The survey instrument used was a shortened version of the Occupational Follow-up Survey provided by the Illinois Community College Board. The survey was shortened this year in an effort to increase the response rate.

Graduates had the option to complete the survey on-line or through the mail. Letters, with student ID number, were mailed to all graduates in November 2008. Those who did not respond were mailed a second letter in February, as well as a paper copy of the survey. Follow-up telephone calls to non-responders were conducted in April and May. Surveys were sent to graduates who completed their vocational program in December 2007, May 2008, and August 2008.

Note: Of the 268 graduates, 128 responded. Of the graduates responding, 5 completed the survey on-line and 123 completed the survey on paper.

For each vocational program, survey results are given for the following:

- Number of graduates
- Number of survey responses

Of those responding:

- Number employed
- Number employed/career related
- Number employed/career related/in-district
- Average hourly wage
- Average hours worked per week
- Level of satisfaction with courses in program major
- Level of satisfaction with general services

Written comments from graduates were forwarded to the President, Vice President of Academic Services, Dean of Occupational Programs, and Dean of Allied Health.
